

# Welcome to Easier Street

Live better with a  
smart home system  
from Nexia™

**READ ONLY**

Simple because you don't have to be tech-savvy to set up and use the system. Nexia installs quickly, updates automatically, and lets you control all of your home's smart devices with one easy and intuitive app. Plus, you can simplify your life by having Nexia do things for you, like turn on the lights at sunset or lock the front door every night, whether you're at home or away.

Capable of making your life easier by reliably helping you do everyday things in a better way. Our future-ready, open platform is compatible with over 400 Z-Wave® smart devices and counting, making it more useful every day. And, you can use Nexia with confidence because we rigorously test and certify devices from top brands, protect your privacy, and continuously monitor and upgrade our software. You can count on Nexia.

Why get up to dim the lights when you can do it from your phone on the couch?

No more jumping out of bed to check if the house is locked because our one-click sleep mode can do it for you.

No need to depend on your neighbor to check on your pets when you can do it yourself with a WiFi camera.

Why cancel dinner plans when you can turn on the lights and let guests in while you're still stuck in traffic?

You'll feel safer arriving home at night because Nexia automatically turns on the porch light and records video when motion is detected.

No more wondering if your child is safely home from school because Nexia sends you an alert and turns the lights and AC on for them.

Practical because it's energy efficient, flexible, and affordable. Each time Nexia sets the thermostat back or turns lights off automatically, you'll save energy, and that can help when you're saving up for college or a family vacation. Because it's wireless, you can easily expand and enhance your system at your own pace. And, no matter how many smart home devices you connect, Nexia's low monthly fee is still only \$9.99 per month with no long term contract.

Heating and cooling is the number one consumer of energy in homes today, accounting for nearly half of the energy used by the average household according to the U.S. Department of Energy. Appliances, electronics and lighting, when combined, are the next largest at almost 35%\*. With numbers like that, it's easy to see how Nexia can make a substantial impact year after year.
